NIYONSHUTI BLAISE

Student

I am a final-year Bachelor of Information Technology student specializing in Software Engineering, with practical experience in full stack development, IT technical support, and graphic design. I have developed multiple backend and front-end applications using Java, JavaScript, TypeScript, React JS, and Spring Boot, demonstrating strong problem-solving skills and a commitment to delivering efficient software solutions. My background includes supporting IT infrastructure and creating visual designs, which enhances my ability to contribute effectively to software development teams.
